Purchase Order
Vector Artwork
Location
Imprint Colours or PMS References

Effective March 1st 2021

Orders accepted only from qualified Promotional Product Distributors, are subject to credit review and are not binding until confirmed by DeZineCorp in writing. The Distributor is responsible for the accuracy of each order, full payment, and all rights to use the artwork submitted. Please check all details carefully. Changes after your initial approval may result in delays and additional charges.

Artwork Requirements: Vector based files allowing colour separation is required. Type must be converted to lines and curves. Adobe Illustrator CS3/5/6 or CC, Corel Draw 13/14/15 or EPS files preferred. Bitmap or raster (Photoshop) files will not be accepted. Drinkware and spot colour AdBlock paper cubes are screened at 55 dpi. Imprints are always registered for visual alignment against one axis (flat surface). Due to the crafted nature of many of our products, imprints may sometimes appear to be crooked when compared to two or more axis on a product with a curved surface.

Artwork Re-Creation Charge: Minimum \$75(g) - will be quoted to convert non-vector artwork.

Artwork Changes after Paper Proof Issued: \$37.50(g) per change.

PMS References: The Pantone Matching System (PMS) is used in the Printing and Graphic industries as a tool for colour reference. We caution our Distributors that it is not possible to achieve exact PMS colour matches with drinkware inks due to the organic nature of the ink. We will strive to come as close as possible to your PMS coated colour requests however we will not guarantee a colour match. If you have any concerns we recommend a Pre-Production Sample.

Pricing: Refer to product description for further details. Most products include a single decoration. **Refer to our website at www.dezinecorp.com for current pricing.** Prices are subject to change without notice. In case of a discrepancy, website pricing will prevail. All prices are in \$CDN and FOB Mississauga Ontario. Taxes and shipping charges are extra.

Digital Images: The display of colours in digital images, including virtuals and paper proofs, may vary dramatically depending on monitor display settings. DeZineCorp cannot guarantee colour matches to digital images. Distributors may want to consider Pre-Production Samples for the best representation of the final decorated product.

Digital CMYK Decorated Products: The nature of CMYK decoration processes (including sublimation and digital printing) may result in slight variations in colour tone between individual pieces, and from the original artwork provided. We will strive to come as close to your original artwork as possible however we will not guarantee a colour match to your CMYK digital artwork.

Exact Quantity Charge: \$125(g)
Applicable where an order with exact quantities is requested.

High Fire Charge: \$1.35(g) per piece. Certain glass and ceramic products may be high-fired to improve durability of the imprinted decoration. Subject to specific scheduled production dates. Less than Minimum Quantity: \$75(g) applies; absolute minimum is half the catalogue minimum order quantity.

Measurements: All measurements including dimensions, capacity, weight, decoration areas, and paper proof templates are approximations. Measurements are intended for reference purposes only.

Over/Under Runs: We reserve the right to ship and invoice a 5% variance in final shipped quantities, plus or minus. Every effort is made to ship the exact quantities ordered. Due to the nature of our products and our stringent quality review process, at times we may incur over/under runs.

In all drinkware there may be a variance of 5 – 7% in the capacity sizing of the product. Leather is a natural material and as a result colour and texture will vary from one lot to the next. Any surface markings, such as shading or scratches, are not defects but part of the characteristics of genuine leather. The above are considered acceptable as per industry standards and are not deemed cause for return.

Product Care:

- All drinkware should be hand washed with mild detergent prior to first use
- To reduce fading and ensure longer imprint life it is suggested that harsh abrasives, detergents and commercial dishwashers be avoided

- Hand washing with a mild soap is recommended
- DezineCorp does not guarantee colour fastness of imprints
- To extend the life and appearance of acrylic, dishwashing should be avoided
- Insulated tumblers, including drinkware with paper inserts, are not dishwasher or microwave safe.
- Metallic glazes and imprints are not microwave safe.
- Distributors are requested to advise their customers accordingly regarding product care cautions and recommendations.
